

# bowen

Frustrated with poor operatory suction?  
Bowen can help with two simple products!

The first product is **Bio-Pure “Restore” Complete Evac System Restorative** and is used over a three week period to restore vacuum suction by removing all the accumulated biofilm build-up that your chemical based cleaner didn't get.

Once suction is restored simply switch over to the second product, **Bio-Pure “Complete” Evacuation Cleaner** which is used only twice weekly.

*Bowen's Best Price Match Guarantee*

**If you see a lower Canadian advertised price on any Bio-Pure products, please call us—we won't be undersold!**

## Bio-Pure Evacuation System Cleaner

Bio-Pure is an all natural microbial based product and uses living organisms to effectively clean your system 24/7; 1 microbe becomes 10 million in just 24 hours. Eliminates 100% biofilm plaque, prophy paste and organic debris.

- The right microbes and enzymes together for clean vacuum lines
- Compatible and best choice for all brands of amalgam separators
- Costs 40% less than other brands, less than \$11 per month per OP
- For eVac maintenance or between patient flush
- Bio-Pure meets new EPA 6-8 pH guidelines
- Eliminates manual daily trap cleaning
- All natural and non-foaming
- Easy to use—just mix with water and go
- 100% eco-friendly
- 100% satisfaction guaranteed or your money back

## Bio-Pure Ultrasonic Concentrate Presoak & Cleaner

*Fantastic value—one bottle makes 48 US gallons.*

New from Bio-Pure, this 3-in-1 instrument restoration formula is specifically designed to safely remove difficult blood, tissue, proteins and contaminants from all dental hand instruments, carbide and diamond burs, dentures, bridges, orthodontic appliances, gold work, porcelain, crowns, aspirator tips, metal parts, and more.

Bio-Pure Ultrasonic Presoak & Cleaner is perfect for most types of metal autoclavable syringe tips. Prior to any form of autoclave sterilization, simply clean tips under running water with a soft brush and place in an ultrasonic bath of Bio-Pure cleaner, soak, then rinse.

Sterilization process when using a gravity displacement autoclave, wrapped, is 130°C for 15 minutes with a 30-minute drying time. Unwrapped, 130°C for 3 minutes with a 15-minute drying time.

- 3-in-1 cleaner: Can be used as a presoak immersion tub, presoak spray, or ultrasonic solution
- Super-concentrated: 1 ounce makes 1.5 US gallons—a 32-ounce bottle makes 48 US gallons of solution (1:192 ratio)
- Bottle contains a convenient built-in dispenser; simply measure out, add to water, and go
- All natural, fragrance free, non-foaming, and non-toxic
- Bio-Pure's proprietary triple action enzyme formula means deep cleaning results
- Perfect for presoak and cleaning hand instruments in the ultrasonic
- Pitting inhibition means product will not damage your delicate instruments
- 100% satisfaction guaranteed or your money back
