

THE BOWEN BULLETIN Q2 2025 PROMOTIONS

Advertised prices in effect April 1 through June 30, 2025

Bowen is a proud Canadian company serving Canadian dentists since 1987.

Who is Bowen Products?

Based in Abbotsford, British Columbia to serve Canadian dentists nationwide, Bowen was established in 1987 by a small group of committed, experienced professionals. As we celebrate our 38th year in business, we are proud of our longevity in this highly competitive industry.

Industry Longevity

Our 38 years of serving the dental industry means we know a thing or two about handpiece sales and service... and a bunch of other stuff too! We're available to help, so give us a toll-free call at 1-800-663-2541... it's free, as is our advice!

Exceptional Client Care

We run circles around full-service dealers for phone and email response times. Repairs are typically completed the same day of your estimate approval, and are always shipped via the fastest and safest method possible.

Handpiece Discount Coupon

Our long-standing \$40 repair discount coupon is applicable toward most handpiece repairs and can be used multiple times. Available online, download yours at bowenproducts.com/coupon.

Repair, Warranty, and Order History

From 2009 onward, our electronic system allows us to instantly retrieve all repairs, orders and tracking data via your unique Bowen profile. Need information on something older? It'll take us a few minutes, but is always at our fingertips.

Quality Parts You Can Trust

We only use the highest-quality repair parts from fully licensed Health Canada vendors and manufacturers. All parts installed in your handpiece are Health Canada licensed and ISO certified. Plus, Bowen adheres to the latest stringent HC MDEL protocols.

Free, No-Obligation Estimates

And we stand by this, 100% of the time. If you decide against a repair, no problem—we never apply an assessment fee.

With everything costing more and more these days, now, more than ever, it makes great financial sense to have us evaluate your existing handpieces. Who knows, we could save you hundreds—or even thousands—of dollars by repairing versus replacing with new! And with free, no-obligation estimates, fast turn-around times, and only the highest quality repair parts installed, you've really got nothing to lose. We are Bowen, and we know handpieces.

And a bunch of other stuff, too!

High Speed Preventative Service

Schedule your handpiece repair pick-up online at bowenproducts.com or call us at 1-800-663-2541.

After our inspection of your high speed, we will deep clean the handpiece inside and out, perform a head ream to remove dents, and high-pressure flush the chip air and water lines to remove debris, ensuring 100% flow. Models with push button chucks are tested for proper bur retention and if discovered to be weak, we will advise prior to repairs. All models receive a new turbine suspension kit, rear gasket where applicable, lubrication, thorough test for proper operation, and 30 day written warranty. Free, no-obligation estimates available.

PREVENTATIVE SERVICE STARTING FROM \$99.00

Sable 🍁 High Speed Canister-Style Turbines

These cost-effective turbines by Sable are specifically made to fit NSK Pana Air, Pana Max, Pana 2000, Henry Schein C-Type, Patterson, Champion, and similar styles. Call for other models.

Trap-It Vacuum Puck

This revolutionary product takes all the mess and fuss out of changing vacuum traps.

Mix and match for savings!

The Trap-It vacuum puck is a self-contained evacuation trap designed to promote simplified and sanitary waste disposal. A specially incorporated lid system means no more messy and unsanitary removal of the vacuum trap; all waste is trapped inside the screen.

Regular use of Trap-It helps avoid bio-burden overflow and the resulting difficulty of removing traps. Eliminate the most disliked chore in your office while simultaneously maintaining maximum vacuum efficiency.

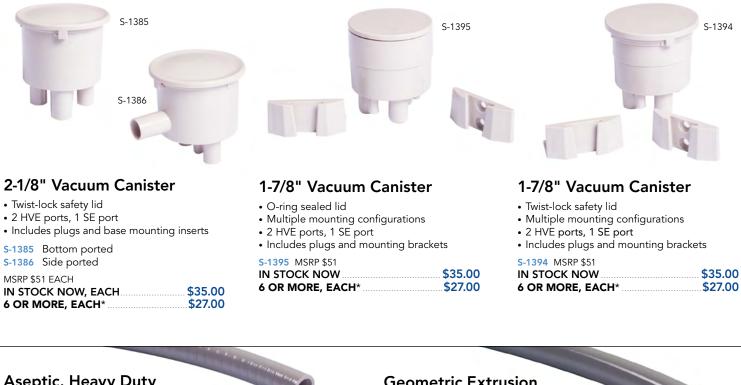

S-1406 Fits A-dec plastic traps and other 2-1/8" traps

MSRP \$149 EACH

IN STOCK NOW (144-PACK), EACH

LAST CHANCE—WHILE STOCK LASTS!

Sable 🍁 Access II and Rotamax II

Improved push button turbine in mini or torque head sizes. Unique 4-hole quick coupler allows for fast release.

- · Conical head design for improved visibility
- Two head sizes: Mini model generates 16 watt/350,000 RPM @ 42 PSI or Torque model @ 18 watts/400,000 RPM @ 42 PSI
- Featuring Myonic bearings for greater cutting power and longevity
- New and improved exterior shell reduces finger fatigue by offering excellent easy-clean tactile grip
- One-piece body/head machined design, which means head cannot pop off like other brands
- Single port water spray offers ample coverage and cooling without compromising visibility
- 4-hole quick disconnect coupler allows fast handpiece changeover and swivel action
- 1 year warranty on handpiece and turbine

Mix and match, plus receive two free couplers.
