

THE BOWEN BULLETIN
Q2 2025 REPAIRS EDITION

Advertised prices in effect April 1 through June 30, 2025

Bowen is a Proud Canadian Company
Serving Canadian Dentists Since 1987

High Speed Preventative Service

Schedule your handpiece repair pick-up online at bowenproducts.com or call us at 1-800-663-2541.

After our inspection of your high speed, we will deep clean the handpiece inside and out, perform a head ream to remove dents, and high-pressure flush the chip air and water lines to remove debris, ensuring 100% flow. Models with push button chucks are tested for proper bur retention and if discovered to be weak, we will advise prior to repairs.

All models receive a new turbine suspension kit, rear gasket where applicable, lubrication, thorough test for proper operation, and 30 day written warranty. Free, no-obligation estimates available.

PREVENTATIVE SERVICE STARTING FROM \$99.00

Sable High Speed Canister-Style Turbines

These cost-effective turbines by Sable are specifically made to fit NSK Pana Air, Pana Max, Pana 2000, Henry Schein C-Type, Patterson, Champion, and similar styles. Call for other models.

Midwest Tru Torc I & II, Shorty Motors

We've tuned and overhauled many of these motors, so in most cases one-day turnaround is available. Remember, we've been restoring handpieces for over 38 years. It's what we do.

Complete Overhaul

Includes 60 minutes of labour, all of the adjacent Tune-Up details, plus turbine bearings, spindle, drive and dry rings, rear tightening rod and bearing, all O-rings, chuck and chuck compressor, sheath lock collar assembly screws and miscellaneous parts, all adjustments and fine-tuning as needed, grease and lubrication, and a thorough test for proper operation. 180 day parts and labour written warranty.

SINGLE SPEED Starting from \$259.00
TWO SPEED Starting from \$299.00

Tune-Up

Includes 30 minutes of labour, full dismantle of motor, thorough deep cleaning of all existing components, new parts replaced limited to drive and/or dry rings, rear tightening rod (Tru Torc only), all O-rings, rear gasket, re-assembly, all adjustments and fine-tuning as needed, grease and lubrication, and a thorough test for proper operation. 30 day warranty.

SINGLE SPEED \$169.00
TWO SPEED \$189.00

Sable N-Style Turbines

Sable turbines are built to the highest standard and feature USA grade ABEC 7 angular contact steel and ceramic bearings. Prices include installation, full service of your handpiece, and a 180 day parts and labour written warranty.

Another Bowen Advantage.

Unlike many of our competitors, we never charge an extra labour fee. Our turbine prices include a full service of your handpiece with a deep cleaning inside and out, a high pressure flush of water/air lines/ports, polish of fiber optics, turbine installation; and after repair, a thorough test for proper operation.

For your peace of mind, Bowen includes a written warranty with each repair. Your handpiece make, model, and serial number, plus the warranty expiry date are all recorded conveniently in one location and returned with your repair.

Impact Air 45 Surgical Handpiece Repair

Sable's superior turbine and cap kit is engineered to seamlessly fit into your Impact Air 45 surgical handpiece.

Includes turbine installation, full service and cleaning of handpiece, and a 180 day warranty—twice as long as the OEM warranty.
