

Repairs are Bowen Product's mainstay... and have been for the past 37 years.

Now—more than ever—it makes financial sense to have us evaluate your existing handpieces. We can either restore them to like-new condition or offer you an excellent replacement option.

We are Bowen, and we know everything about handpieces.

Why send your repairs to Bowen?

Based in the Fraser Valley of British Columbia, and serving Canadian clients nationwide, Bowen Products Limited was established in 1987 by a small group of committed, experienced professionals with an ongoing passion for serving the dental community.

Industry Longevity

With 37 years of repair experience, we know a thing or two about handpieces. Just give us a call as no question is too big or too small; we're here to help. *(To be honest, we love talking about handpieces...)*

Repair, Warranty, and Order History

In mere seconds and dating back to 2009, we can instantly retrieve all repairs, orders, and tracking data via your unique Bowen profile. Need information on something older? No problem; we still maintain all historical paper files prior to 2009—it'll take us a few minutes, but it's at our fingertips. ***Client care is our number one priority.***

Exceptional Client Care

We run circles around full-service dealers in phone and email response times; our repairs are typically in and out the same day of your repair approval and are always shipped via the fastest method possible. ***Just one reason out of many to check us out.***

Now, more than ever, it makes great financial sense to have us evaluate your existing handpieces. Who knows, we could save you hundreds—or even thousands—of dollars repair versus replacing with new! With free, no-obligation estimates, fast turn-around times, and only the highest quality repair parts installed, you've really got nothing to lose. **We are Bowen, and we know handpieces.**

Quality Parts You Can Trust

We only use the highest-quality repair parts from fully licensed Health Canada vendors and manufacturers. You have our assurance that all parts installed in your handpiece are Health Canada licensed and ISO Certified. Plus, Bowen adheres to the latest stringent HC MDEL protocols.

Our promise to you, for your peace of mind.

Handpiece Discount Coupon

Our long-standing \$40 repair discount coupon is applicable toward most handpiece repairs. Available online, download yours at bowenproducts.com/coupon. ***We love saving our clients some money!***

Free, No-Obligation Estimates

And we stand by this, 100% of the time—if you decide against a repair, no problem—we never apply an assessment fee and the return shipping is on us.

We've got your back!

And a bunch of other stuff, too!

High Speed Preventative Service

Schedule your handpiece repair pick-up online at bowenproducts.com or call us at 1-800-663-2541.

After our inspection of your high speed, we will deep clean the handpiece inside and out, perform a head ream to remove dents, and high-pressure flush the chip air and water lines to remove debris, ensuring 100% flow. Models with push button chucks are tested for proper bur retention and if discovered to be weak, we will advise prior to repairs.

All models receive a new turbine suspension kit, rear gasket where applicable, lubrication, thorough test for proper operation, and 30 day written warranty. Free, no-obligation estimates available.

PREVENTATIVE SERVICE STARTING FROM.....\$95.00

High Speed Canister-Style Turbines

These cost-effective turbines by Sable are specifically made to fit NSK Pana Air, Pana Max, Pana 2000, Henry Schein C-Type, Patterson, Champion, and similar styles. Call for other models.

EVEN MORE BOWEN ADVANTAGES

Unlike many of our competitors, we never charge an extra labour fee.
Our turbine prices include a full service of your handpiece with a deep cleaning inside and out, a high pressure flush of water/air lines/ports, polish of fiber optics, turbine installation; and after repair, a thorough test for proper operation.
For your peace of mind, Bowen includes a written warranty with each repair.
Your handpiece make, model, and serial number, plus the warranty expiry date are all recorded conveniently in one location and returned with your repair.

Impact Air 45 Surgical Handpiece Repair

Sable's superior turbine and cap kit is engineered to seamlessly fit into your Impact Air 45 surgical handpiece.

Includes turbine installation, full service and cleaning of handpiece, and a 180 day warranty—twice as long as the OEM warranty.

Fittings Kit by Parts Warehouse

This 18-compartment plastic case contains a total of 590 pieces, including common 10-32 fittings, plugs, barbs, tees, washers, and more.

AD-1023 MSRP \$360
IN STOCK NOW\$285.00

We carry a wide variety of bulbs for curing lights, overhead patient lights, and handpiece couplers online at bowenproducts.com/shop/

Handpiece Pressure Gauge

If this test gauge saves just one turbine, it will more than pay for itself on its first use.

Delivery unit gauges are notorious for their inaccuracy. The reading on a test gauge is the only way to accurately adjust drive air on your delivery system. Simply connect to tubing, then attach your handpiece or coupler and let the gauge do the rest. **Now that's resourceful.**

7267 MSRP \$116
IN STOCK NOW\$79.00
