

Bowen Bulletin

Q4 2025

We're a proud B.C. business serving Canadian dentists since 1987... that's over 38 years!

Industry longevity

Our 38 years of serving the dental industry means we know a thing or two about handpiece sales and service... and a bunch of other stuff too! We're available to help, so please give us a toll-free call at 1-800-663-2541... it's free, as is our advice!

Exceptional client care

We run circles around full-service dealers for phone and email response times. Repairs are typically completed the same day of your estimate approval, and are always shipped via the fastest and safest method possible.

Handpiece repair discount coupon

Our long-standing \$40 repair discount coupon is applicable toward most handpiece repairs and can be used multiple times. Available online, download yours at bowenproducts.com/coupon.

Free, no-obligation estimates

Available for all air-driven high and slow speed handpieces. A \$49 assessment fee will be applied to declined electric motor/handpiece systems.

Repair, warranty, and order history

From 2009 onward, our electronic system allows us to instantly retrieve all repairs, orders and tracking data via your unique Bowen profile. Need information on something older? It'll take us a few minutes, but is always at our fingertips.

Quality parts you can trust

We only use the highest-quality repair parts from fully licensed Health Canada vendors and manufacturers, including Sable Industries. All parts installed in your handpiece are Health Canada licensed and ISO certified. Plus, Bowen adheres to the latest stringent HC MDEL protocols.

With ever-increasing costs these days it makes great financial sense to have us evaluate your existing handpieces. We could save you hundreds of dollars—or even thousands!—by repairing versus replacing with new.

bowen
WE KNOW HANDPIECES

High Speed Preventative Service

Schedule your handpiece repair pick-up online at bowenproducts.com or call us at 1-800-663-2541.

After our inspection of your high speed, we will deep clean the handpiece inside and out, perform a head ream to remove dents, and high-pressure flush the chip air and water lines to remove debris, ensuring 100% flow. Models with push button chucks are tested for proper bur retention and if discovered to be weak, we will advise prior to repairs.

All models receive a new turbine suspension kit, rear gasket where applicable, lubrication, thorough test for proper operation, and 30 day written warranty. Free, no-obligation estimates available.

PREVENTATIVE SERVICE STARTING FROM..... \$99

Sable High Speed Canister-Style Turbines

These cost-effective turbines by Sable are specifically made to fit NSK Pana Air, Pana Max, Pana 2000, Henry Schein C-Type, Patterson, Champion, and similar styles. Call for other models.

The Bowen Advantage.

Unlike many competitors, we don't charge our clients extra labour fees.

Our turbine prices include a full service of your handpiece with a deep cleaning inside and out, a high pressure flush of water/air lines/ports, polish of fiber optics, turbine installation; and after repair, a thorough test for correct operation.

And for your peace of mind, Bowen includes a written warranty with each repair. Your handpiece make, model, and serial number, plus the warranty expiry date are all recorded conveniently in one location and returned with your repair.

Impact Air 45 Surgical Handpiece Repair

Sable's superior turbine and cap kit is engineered to seamlessly fit into your Impact Air 45 surgical handpiece.

Includes turbine installation, full service and cleaning of handpiece, and a 180 day warranty—twice as long as the OEM warranty.

1001158 Push button kit *Turbine and cap.....\$399*

Sabra OMS 45/Power 45 Surgical Handpiece Repair

Prices include an OEM Sabra turbine, full service and cleaning of your handpiece, and a 180 day written warranty.

SPRAY, DROPPER & REFILL LUBRICANT & CLEANER

Cleans and maintains as it lubricates
Made in North America
100% satisfaction guaranteed!

Clinically tested and top of its class, Sable's EZ Lube consists of aerospace synthetic formula, is food grade safe and designed for all your high and slow speed handpieces, and will not break down during sterilization procedures.

During rigorous independent testing against major competing brands for bearing scar size, Sable EZ Lube ranked up to 250% better than the rest!

EZ Lube is available in three formats: a 500 ml spray can, a 60 ml dropper bottle featuring a needle tip applicator, and a 500 ml refill bottle which can be used as refills for your standalone cleaning and purging devices.

Valued at \$324

With over 40 years of building and servicing the finest ultrasonic dental scaler, it makes great business and professional sense to switch to Autoscaler. Here's why:

Autoscaler Costs Much Less

While Cavitron is a fine product, so is Autoscaler at less than half the cost. **And Bowen has the best advertised price in Canada, guaranteed.**

Best-in-Class Warranty

Autoscaler is time tested over 40 years and stands behind a 6 year warranty for circuit boards and 2 years for all other components.

Autoscaler: The Science of Dentistry

- Detachable handpiece assembly that attaches to the front left-hand side of the console—no more kinked tubing
- Precision automatic tuning
- Specifically designed to accept and function with leading manufacturers magnetostrictive insert tips (Hu-Friedy, Dentsply/Cavatron)
- Front control operated water pressure flow regulator for precise water pressure from 18cc to 30cc
- Compact size, measures 9"W x 8"D x 3"H
- 8' manual foot switch
- 8' detachable handpiece assembly
- 8' water tubing with 1/4" male quick disconnect adapter attached
- Best-in-class warranty of 6 years for circuits and 2 years for all other components, now includes handpiece assembly
- Instructions and online support at autoscaler.com

Bowen Tech Tip

You know it's time to replace your splash shield at the first signs of wear and tear, such as cracking or discolouration. The same applies to the glass reflector, when the reflective coating begins to separate from the glass.

Bio-Pure Evacuation System Cleaner

Bio-Pure is an all-natural microbial-based cleaning product and uses living organisms to effectively clean your system 24/7—1 microbe becomes 10 million in just 24 hours! Bio-Pure eliminates 100% biofilm plaque, prophy paste, and organic debris.

- All natural, non-foaming, and 100% eco-friendly
- The right microbes and enzymes together for clean vacuum lines
- Compatible and best choice for all brands of amalgam separators
- Costs 40% less than other brands
- For eVac maintenance or between patient flush
- Meets new EPA 6–8 pH guidelines
- Eliminates manual daily trap cleaning
- Easy to use—just mix with water and go!

Scan the QR Code and watch a fun video to discover how Bio-Pure keeps your dental operator running efficiently!

Trap-It Vacuum Puck

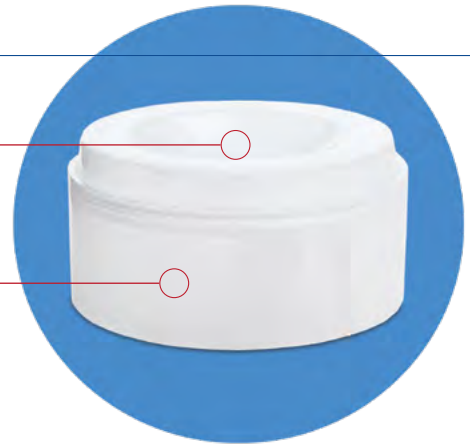

This revolutionary product takes all the mess and fuss out of changing vacuum traps.

The Trap-It vacuum puck is a self-contained evacuation trap designed to promote simplified and sanitary waste disposal. A specially incorporated lid system means no more messy and unsanitary removal of the vacuum trap; all waste is trapped inside the screen.

Regular use of Trap-It helps avoid bio-burden overflow and the resulting difficulty of removing traps. Eliminate the most disliked chore in your office while simultaneously maintaining maximum vacuum efficiency.

Built-in tab
for easy grip

Screen and
debris are inside
this one-piece puck

S-1398 144-pack—fits Belmont, Biotec, Dentech, Forest, Proma and other 1-7/8" traps

S-1406 144-pack—fits A-dec plastic traps and other 2-1/8" traps

LAST CHANCE—WHILE STOCK LASTS!

Sable Access II and Rotamax II

Improved push button turbine in mini or torque head sizes.
Unique 4-hole quick coupler allows for fast release.

- Conical head design for improved visibility
- Two head sizes: Mini model generates 16 watt/350,000 RPM @ 42 PSI or Torque model @ 18 watts/400,000 RPM @ 42 PSI
- Featuring Myonic bearings for greater cutting power and longevity
- New and improved exterior shell reduces finger fatigue by offering excellent easy-clean tactile grip
- One-piece body/head machined design, which means head cannot pop off like other brands
- Single port water spray offers ample coverage and cooling without compromising visibility
- 4-hole quick disconnect coupler allows fast handpiece changeover and swivel action
- 1 year warranty on handpiece and turbine

Mix and match, plus receive two free couplers.

Bite into Custom Branding: 25 Years of Personalized Design for Dental Practices

With over 30 years of dedicated experience in graphic design and website development, Harv specialises in creating visually compelling and industry-specific marketing solutions that help dental practices stand out. Celebrating 25 years in business, Harv Craven Design has a proven track record of delivering tailored branding, responsive websites, and professional collateral designed specifically for the dental industry.

Working directly with each client, Harv ensures a deep understanding of your marketing goals and unique needs. Since beginning with Bowen Products in 2000, he has maintained a commitment to excellence and a thorough knowledge of the dental sector. Notably, the *Bowen Bulletin*, the quarterly flagship publication you're reading today, was created by Harv Craven Design, exemplifying a long-standing partnership and expertise in industry communication.

"From day one, Harv has not only met but consistently surpassed our expectations, unveiling innovative and groundbreaking ideas that elevate our projects to new heights. I have complete trust in Harv regarding all our marketing needs, and I wholeheartedly recommend Harv Craven Design."

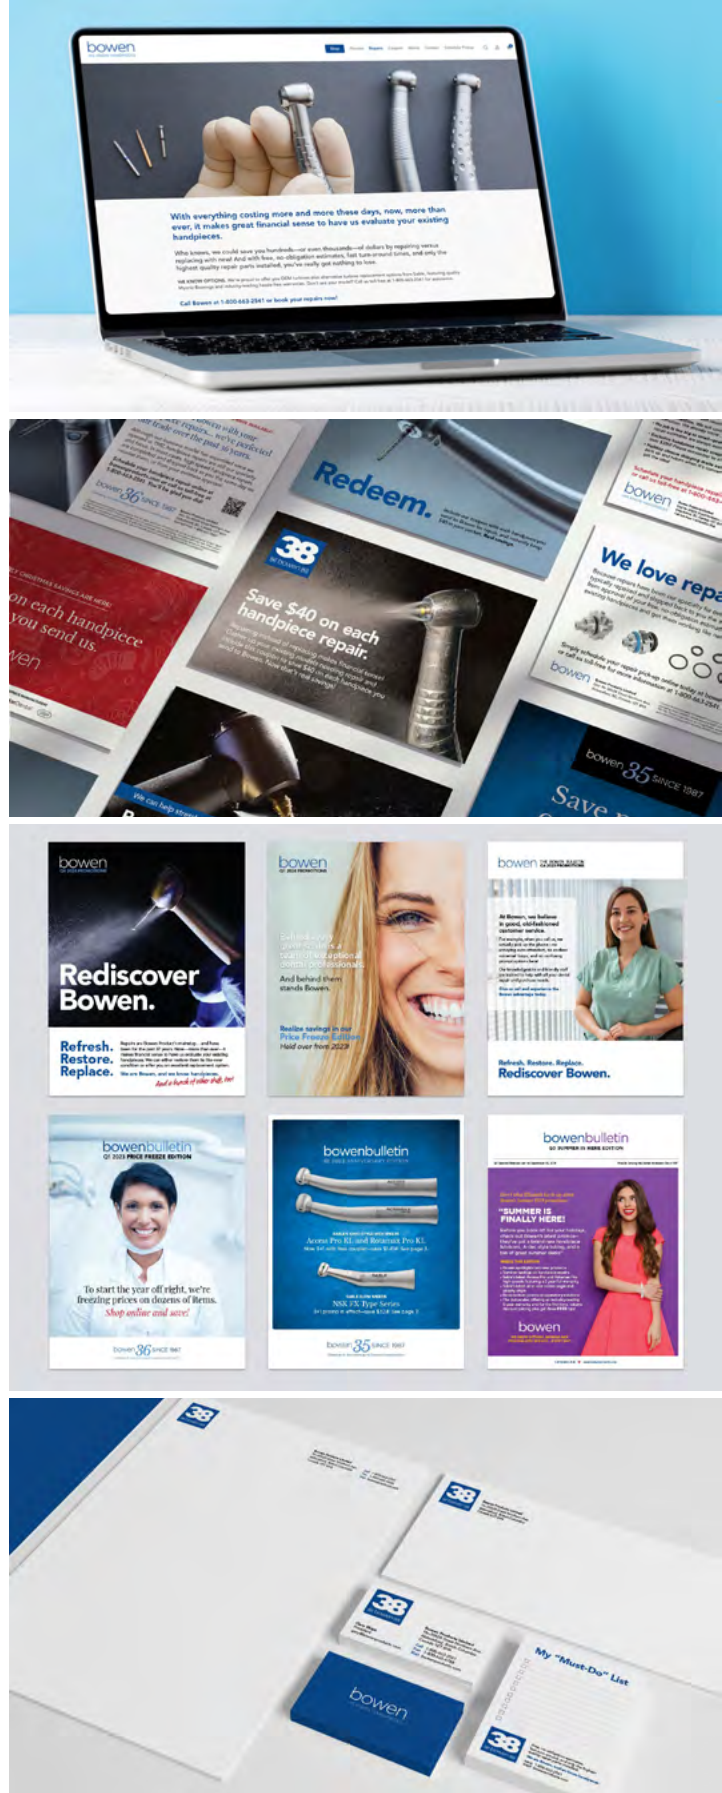

—Gary Skipp, President, Bowen Products Limited

Harv Craven Design services include development of company logos, trade show materials, digital campaigns, website design, and industry-focused collateral, all with a focus on clarity, professionalism, and meaningful brand development.

If you're aiming to enhance your dental practice's visual identity and communication strategies, Harv Craven Design invites you to get in touch. Let's collaborate to develop impactful designs that elevate your brand and grow your client base.
